\$75 Per Month

Four brand new houses, which will bring a monthly rental of \$75.00 per month. Two of these are modern 5-room houses, bath, toilet, stationary wash-stand, pantry, closets, large porches. These houses ought to rent regularly for \$25 apiece.

The other two houses are 4-rooms, pantry, city water, electric lights and ought to rent for \$15 each, this makes \$80.00 per month.

This property is located near the Union Depot, is nice and slightly, new, neat and clean. This will be sold either on the installment plan or for cash, so as to bring One per cent per month.

This is a great investment for any one desiring a permanent income of this amount, as property of this kind, located in this vicinity always commands a good class of tenants.

If you are interested in having a permanent income of \$75.00 per month, call and see me.

MINING NEWS

MAGMA EAST COPPER ORE BODY IS RICH

That one of the finest breasts of ore a person would wish to see is that on the 550-foot level of the Magma property, where the management is drifting along the east ore body, is the statement made on Tuesday morning by W. C. Browning, field engineer for the Gunn-Thompson company, who has returned from a visit to this noted Arizona mine. Word reached the local offices a short time ago that the 550 level operations had driven into the east ore body, and following this intelligence Mr. Browning left for the property.

Up to the time of his departure from the property several days ago the ore had been opened along the trend for sixty-five or seventy feet, with ore still in the drift, and a cross-cut driven about ten feet of good grade copper ore. Occurring within the ore body are streaks of very rich copper glance, and a sample is to be seen at the local offices which will carry not less than 60 per cent red metal. The company has developed the west ore body to greater depth than this east resource, and work has been started on the 90-foot level of the west body to open the east body at that depth.

During the past summer the Magma management was busy receiving and installing new machinery and the big compressor is now operating, the pumps are installed and the company is in fine shape for pushing ahead the comprehensive campaign of development work as outlined. Ore shipments are being made already, although no effort is made to produce ore, such as is extracted in development work only being forwarded to the smelters and nothing less than 6 per cent copper is shipped. While in Arizona Mr. Browning visited the Inspiration Consolidated mine, where everything is actively in rounding out the proposition for production. The company is excavating for the big mill, much of the railroad grading is completed and the contracts for the structural steel have been let.

MERGER MINES CLOSES AN IMPORTANT DEAL

Goldfield, Dec. 11.—An agreement has been reached between the Goldfield Mines company and the Jumbo Extension company, by which joint use of the Polever shaft of the Jumbo Extension property has been provided for. This will permit the Merger company to develop its Velvet claim at depth, and President C. O. Whitmore announces that the Merger will begin immediately to drift in ore, and as soon as connections are completed with the Velvet workings, the Merger company will become a steady producer. This is considered one of the most important announcements in recent years in Nevada mining. The Merger company is controlled by W. A. Clarke's \$10,000,000 Deep Mines company. President Whitmore states that the original plans of the company to drive to the 2000-foot level in the St. Ives shaft will be carried out to the letter, while the connections with the Goldfield Consolidated shaft on the 1300-foot level will be completed within a fortnight, following which two large fissures in the shale will be developed.

MORE DIVIDENDS IN TIME FOR HOLIDAYS

Provo, Dec. 11.—Three holiday dividends which have been expected for some time were declared here today, the directors of the Grand Central, Gold Chain and Colorado Mining companies taking favorable action.

The Grand Central Mining company will pay 5 cents a share, or \$25,000, on January 1, the books closing on December 16.

The Gold Chain will pay 3 cents a share, or \$20,000, on December 23, the books closing on December 16.

The Colorado Mining company will pay 3 cents a share, or \$30,000, on December 20, the books closing on December 14.
